

Identity Force provides comprehensive identity and credit monitoring to both individuals and businesses, although high-quality services like these do come at a cost. What IdentityForce does is they comprehensively monitor your personal information, protects your identity from potential threats and provides you with an ID health score to help you see how you can avoid identity fraud. This identity theft protection service assists everyone from individual consumers to the Federal Aviation Administration and the Department of Homeland Security.

Furthermore, the company has been in business since 1978. IdentityForce is so confident in its ability to protect your identity that it offers identity theft insurance. Instead of paying for your losses only if the company is at fault, IdentityForce will pay up to \$1 million to cover your losses regardless of fault. IdentityForce is our Top Ten Reviews Silver Award winner because it provides such exceptional service.

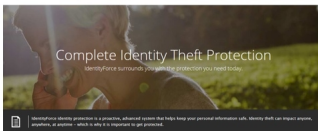

A Force Field of Protection

Identity Theft Protection that Works the Way You Work. IdentityForce has you covered. We know what it takes to keep important matters private and secure, from curb to cloud. Here's how we do it.

Monitor | **Alert** | **Control** | **Relax**

Alert
